

# COMMON COORDINATED ENTRY ISSUES

## Access

- More people need assistance than we have resources
- Most vulnerable people are not coming to access points

## Assessment

- Assessment time is long
- Assessment does not lead to assistance for many people

## Prioritization

- Not getting updates for many people on the prioritization list, or updates aren't meaningful
- List is long

## Referral

- Once people are referred they do not have the documentation to enter a program
- Referral process is slow
